

POLITYKA INSIGHT is Poland's leading source of political analysis and business intelligence for business leaders, policymakers, and diplomats. It was established in 2013 and has three business lines: it publishes analytical services available to subscribers (PI Premium, PI Finance, PI Energy, and PI Energy & Climate Weekly), prepares tailored research, presentations, and workshops for companies, public administration, and international organisations, as well as organises thematic debates and conferences. Since 2017, Polityka Insight has also published podcasts that play a more and more significant part in its daily activities.
